

# RELIABLY SOLVING COMPLEX FEDERAL GOVERNMENT SECURITY CHALLENGES

Federal agencies and the nation's critical infrastructure are highly dependent on secure and stable information technology systems to carry out operations. The security of these systems and their locations is vital to public confidence and national security.

IST, an Unlimited Technology company and 25-year partner of the Federal government, offers a robust technology integration portfolio to this mission-critical sector. Our sophisticated IT expertise and in-depth integration experience provide the level of expertise required to build high-performing physical security environments and networked IT systems that protect the people, assets, and facilities of Federal agencies at all times.
